PROJECTS & AWARDS

Co-Founder - Business Research & Marketing | TumaNow September 2025 – Present
Champion, 2025 Iloilo Province Startup Hackathon

- Developed and pitched a digital solution for local government that won 1st Place among 9 competing teams in the 2025 Iloilo Province Startup Hackathon.
- Conducted business research, market validation, and systems analysis that strengthened the solution's feasibility and value proposition.

Customer Churn Prediction April 2026
GCI World Program – Matsuo-Iwasawa Laboratory, The University of Tokyo | Final Assignment

- Analyzed 100,000 telecommunications customer records using Python to identify patterns related to customer churn.
- Cleaned and prepared data, created visualizations, and tested a Random Forest model to predict customers at risk of leaving.

PricePulse PH | Commodity Price Analytics Dashboard August 2026
Personal Project

- Developed an interactive dashboard using PSA's historical Philippine commodity-price data to visualize price changes, explore trends, and compare prices across locations.
- Created a household basket calculator, CSV exports, and checks to prevent incorrect results when price data is missing.

Project Manager | Backyard Livestock Monitoring System (BLMS) Academic Year 2025-2026
Capstone Project | Best Capstone Project Award

- Led requirements gathering and business process analysis to design a proposed web-based Backyard Livestock Monitoring System. Turned user requirements into clear system specifications.
- Managed project documentation, task assignments, and team discussions to keep the project organized and completed on schedule.

PROFESSIONAL EXPERIENCE

Student Intern | ISAT U – Kwadra Technology Business Incubator January 2026 – May 2026
Outstanding Intern Award

- Prepared official letters, reports, certificates, and project documents that supported the successful implementation of innovation, entrepreneurship, and startup development programs.
- Assisted in organizing innovation programs, startup activities, and administrative processes to ensure smooth event coordination and program execution.
- Worked with faculty members, startup founders, mentors, and external partners to strengthen communication, documentation, and project coordination across multiple initiatives.

Student Intern | Wadhwani Foundation Philippines February 2026 – March 2026

- Coordinated with faculty members from partner universities to support the successful implementation of entrepreneurship and innovation programs.
- Monitored participant progress on the Wadhwani platform and sent follow-up reminders to encourage continued participation and timely program completion.
- Maintained communication records and program documentation to improve coordination and communication among participating universities.
